

Welcome to all new and returning MPA students. There are many well-respected graduate programs that you could have chosen, whether with other colleges at Boise State, other universities around the area, or even online. However, I think that none of these can match the wonderful combination of having a top notch, involved and approachable faculty, a course schedule that is geared towards the working professional, and many opportunities to ‘get your hands dirty’ in the capital city of our great state. As the Secretary of your Master of Public Administration Association, I hope to help provide you with opportunities to develop relationships with your classmates, faculty, and alumni.

Go Broncos!

Greg Bradshaw, Secretary
