

Welcome back to school! The MPA Association exists to create and maintain a community among MPA students, faculty, and alumni. As a program that benefits from the enrollment of many fully employed, part-time students, class time alone is often not enough to develop a community. However, the benefits of an active MPA community are huge! At MPA Association events, students and alumni can learn about other public agencies to become more effective and informed in their current jobs. These events are also an opportunity to circulate your name and expertise among other public service professionals who might be hiring or in search of a motivated intern. Plus, it's a great chance to enjoy the company and conversation of bright, motivated, and interesting people. Hope to see you at one of the MPAA functions this fall!

Stacey Donohue, Treasurer
